MESSAGE FROM THE PRESIDENT'S DESK

Dear Educators,

It gives me immense pleasure and happiness to present to you the first edition of our very own Haryana Educators' Club Magazine, 'Educator'. Haryana Educators' Club was founded last year with the basic aim to improve the quality of education in our society and to re-establish the honor of the educators. Approx. 100 top schools of Haryana are already members of this beautiful Club and stand with each other in every moment of life.

We not only share the educational learnings with each other but this club also believes in sharing the happiness together. We are a big family who takes pride in celebrating festivals together and having family get-togethers. I strongly believe that "We can earn alone but we cannot enjoy alone". Last year, we organized a grand Diwali Celebration for our members and this year we've already had a fabulous Holi Milan function where everybody enjoyed and had lots of fun together. We plan to have many such gatherings again in the future.

Another important objective of Haryana Educators' Club is to organize Teacher Training Workshops. We believe it is very important to "Train the Trainers" and we want to assist the teachers in enhancing their expertise and widening their horizons.

Maintaining and enhancing safety and security of schools is another top priority of our Club. Schools are meant

to be a safe place for children. They are an essential part of their lives and are meant to raise them to be the best version they can be. The Club will support the schools in updating their understanding of security and implementing new policies and strategies.

Happiness stays with them who keep zero distance between thoughts and expression. We, at Haryana Educators' Club also believe in recognizing and appreciating the efforts of our fellow educators. Every year, we organize an award ceremony to honor achievers and exceptioners in this field. We also want to promote international exchange program for educators to provide them with the exposure for understanding and adopting alternative, multi-cultural, multi-faceted approaches to learning.

Without further ado, I would like to end here with the famous quote, "**Education is the most powerful weapon which you can use to change the world**". Someone can use it for wrong or right, but it ultimately helps them improve their life and the lives around them.

RAMESH DAGAR

President, Haryana Educators Club
Chairman, New Delhi Public School,
Palwal

Chairman, Rahul Public School,
Faridabad

VISION AND MISSION STATEMENT

Haryana Educators' Club envisions every educator as a valued member of the society, deserving respect and recognition. The club's mission is to unite the school leaders and give them a platform where they feel treasured and free to express themselves. At the same time, help schools improve the quality of

education as a joint effort by emphasis on professional development of teachers, workshops, exchange of best practices. The club also aims to take up international exchange programs to adopt and introduce salient features of Foreign Education for the benefit of our learners.

ABOUT THE CLUB

Teaching is a very noble profession that shapes the character, calibre and future of an individual. If the people remember me as a good teacher, that will be the biggest honour for me.' – Abdul Kalam

With an aim to recognize and honour the significant role of educators in shaping the future of the Nation, Haryana Educators' Club was constituted by Sh. Ramesh Dagar, the founder President of the club. The club, currently has around 100 Members and the family is growing and spreading.

The Haryana Educators' Club is a perfect example of a platform, where enjoyment meets purpose. Every get together is a perfect blend of learning and happiness, with all elite and top schools coming together as one big family.

The Club has already covered a journey of one year, filled with various glittering memories and achievements. The concept was announced by Sh. Ramesh Dagar at the Shiksha Ratan Award Ceremony 2018 at Hotel Radisson Blu followed by an

amazing realisation through successful milestones like General Body Meeting at DAV Public School, Sector-14, Faridabad, Diwali Celebration at Heritage Global School, Faridabad, Holi Milan Ceremony at Rawal International School, Faridabad and Shiksha Shiromani Award Ceremony at Hotel Radisson Blu, Faridabad.

What makes these events and the club unique is the way it brought the eminent educators and their families together and they felt loved and cherished and connected in every way. It is rightly said that 'happiness stays with them who keep zero distance between thoughts and expressions', so at this club, every member has the liberty to express himself or herself freely and glorify the educators and infuse in them the sense of pride for the noble cause they are associated with.

To further strengthen and unite the community of eminent Educators, we proudly present to you the First Edition of our magazine- EDUCATOR.

OUR VALUED ADVISORS

Congratulations! to the President and all the members of educators club, Faridabad on publishing the first issue of its magazine. It will certainly go a long way in synthesizing the whole education community of district Faridabad and Palwal. I am definite that this initiative will give a common

platform to all the school stakeholders to share and contribute their best practices, experiences and rich knowledge to promote the education. My good wishes to all the office bearers for their sincere efforts to bring all the reputed, like-minded, enthusiastic educators at one stage to make them familiar with each other and spread peace and harmony among all. I feel elated to be the advisor of this dignified educators club. Wishing you all the success in all endeavours.

C. B. Rawal
Chairman, Rawal Educational Group, Faridabad

Dear Educators,

I am pleased to be a part of the Haryana Educators' Club in the capacity of the Advisor. We, the educators, must take pride in the fact that we are the agents of change, promoting understanding and accepting the enormous challenges and responsibilities in the moulding of the characters and minds of the new generation.

It is important for us to realise that education is an important factor in creating the social order founded on the values of socio-economic justice, freedom and equal opportunity, which accelerate economic development and technological progress. This social change and its new products necessitate

revolutionary changes. New educational objectives require newer approaches and modified educational administration for their fruition. This was the founding thought behind the formation of the Haryana Educators' Club. The members here have freedom to exchange academic thoughts and experimentations with new ideas creating a friendly, permissive atmosphere, where 'freedom', 'fellowship' and 'comradeship' are the keywords. I pray that this will go a long way in granting piously desired 'freedom' in the world of education where we all dwell.

I wish all the success in the ensuing years to the enthusiastic, productive, result-oriented, positive educator leaders and invite them to inculcate a sense of belongingness to this club.

Surinder Singh Chaudhary
Advisor-Haryana Educators' Club
Regional Officer-D.A.V. Public Schools Haryana Zone-B
D.A.V. College Managing Committee

OUR VALUED ADVISORS

I am immensely pleased to know that "Haryana Educators club" is bringing out the first edition of its Magazine. I take the opportunity to congratulate the President of the club and his team members on the eve of its publication and applaud their relentless efforts. The aim of the Educators club is to organise recreational get togethers of its members along with encouraging and motivating them to provide quality education in their respective schools for holistic development of students. I am extremely thrilled to state that the club has justified its purpose by fulfilling its responsibility towards education through various cultural, religious and social activities. The club has not only encouraged and entertained its members but also felicitated them time and again for their positive attitude and sustained efforts in the field of education. Wishing the club the very best for all its future endeavours.

H.S. Malik
Chairman (Faridabad Model School)

Educators Club's magazine is truly a source of knowledge and inspiration for all working in education field. It is a great step in spreading awareness about who have succeeded in their lives and all other important events related to educational field. It is a nice magazine to bring all the members related to education on one platform for this purpose, I sincerely appreciate and congratulate efforts of Mr. Ramesh Dagar, Chairman of Educators Club who has understand the value of magazine which is a treasure trove of knowledge, inspiration and guidance for all of us. I hope as advisor of club that this magazine continues to do well in future.

SPS Dagar
Chairman (Adarsh Vidya Mandir High School)

In this modern era, a man concentrates only on his selfish motives and earns more and more to provide to his family, near and dear ones or be entertained with his most intimate friends. There is hardly anyone to think to free the society of its cares and anxieties, so that every individual may live happily and peacefully. Taking into consideration this aspect of society, Shri Ramesh Dagar established an institution entitled Haryana Educators Club. The members often get together to discuss one another's troublesome issues and try to find an amicable solution. This institute caters to impart joy and preach to live happily; hence it is working at its best to bring happiness for others. This institute is exemplary and a precept in this modern era, where riches and wealth is secondary to happiness and joy. It believes that with wealth, being happy and keeping others happy is not only noble, but also invaluable.

Rishipal Chauhan
Chairman
Jiva Public School

CORE COMMITTEE OF THE CLUB

As a member of core committee of educators club Faridabad, I am excited on publishing its first issue of magazine. This magazine will give the glimpses of all the events which have been organised by the club till now. I would like to express my gratitude to all the worthy members for their overwhelming response and sincere cooperation for making all the events a grand success. I am sure readers will find it a worthwhile memoir.

Anil Rawal
Pro chairman
Rawal Educational Group,
Faridabad

It gives me immense delectation to be part of the first edition of the magazine of our own Educators' Club. This club is a platform where all education pundits share their views and give new dimensions to knowledge. In this brief term of a year, the club has not only facilitate us in resolving our professional challenges but also brings our families close by celebrating various festivals together. I congratulate all the members for being a part of such prodigious family.

Gaurav Parashar
Gen. Secretary
Haryana Educators' Club

The role of an educator in shaping the future of the society, the state, the nation and the world is very significant and vital. Owing to the challenges of the technologically advancing and evolving age, it is very important that the educators feel motivated and strengthened. Haryana Educators' Club is a platform for all the educators to collectively march towards a common goal and become each other's guiding lights. As the secretary of the Club, I feel blessed and privileged to be a part of this amazing and growing family.

Rakhi Verma
Secretary
Haryana Educators' Club
(Principal- Heritage Global School, Faridabad)

I am obliged to be the core member of the club sharing space with great visionaries, educationist, empowered minds and intellectuals. I am extremely sanguine on publishing of this magazine which will unlock the store house of creative geniuses, their excellence and continuous progress that has been steered with values and conventions as their fulcrum quality work. This club indeed is enhancing the exchanging of ideas for a better quality of educational platforms. I wish a great success for the first issue of this magazine.

Deepak Yadav
Director, Vidyasagar
international School,
Faridabad.

CORE COMMITTEE OF THE CLUB

Educators club is an amalgamation of best brains, refined intellectuals and above all pure souls. It boosts each of its member to enjoy life, excel in performance and contribute for the happiness of all. I feel honoured and proud to be the member of this dignified club. I express my sincere thanks to the President Mr. Ramesh Dagar and other members for making it a prestigious platform for each and every educator. Heartiest good wishes on publication of this magazine which will be a treasure of best sweet memories for all of us.

Dr. C. V. Singh

Principal
Rawal International School,
Faridabad

The name 'Educators club' itself signifies The Union of excellent and creative brains with the motive of bringing the virtual progress in the education. I feel honoured to be the part of this premier club. I congratulate our dynamic leader Mr. Ramesh Dagar and his team in bringing out the first issue of the magazine of this club.

With best wishes

B. S. Saluja

Chairman
South End Public School

An Educator's mission is to transform the social structure into a higher consciousness. It is an Educator who takes the world forward by engaging the future generation creatively and productively. While being an Educator is a unique opportunity and the highest title that exists, being a member of the Haryana Educators' Club is a source of immense pride. The club is a one of its kind platform for prolific activities and plentiful learning from the rich experiences of the educators in Haryana. The club is consistently endeavouring to empower the educators' community by celebrating special days and achievements together. The first edition of the club magazine-Educator showcases its activities during the inception year. I look forward to growing with the club and its eminent members fruitfully and rewardingly.

EDUCATION - HOW TO MAKE IT ACCOMMODATIVE?

In the present scenario of greater competition for faster growth, education sector has assumed higher significance than ever. Scoring 100 still remains the main objective of School education. However, this has increased the complexities and challenges of education system as a whole and class – room teaching in particular. The patience is on the wane and hunger of quick success on the rise. Secondly, the fast pace of urbanization, reduction in open space in cities and almost disappearance of the concept of social guardianship have practically robbed the opportunity of learning life skills of how to handle failure and celebrate success, from our children. Again, higher level of migration is making our society more and more heterogeneous. Where, it has increased the opportunity of cultural amalgamation on the one hand, on the other, it has also heightened the chances of cultural conflicts. The onus of synthesizing all these issues has obviously fallen on the schools to a large extent. Hence schools cannot feel satiated by excelling within the limits of curriculum, they will have to go beyond the contour of academic curriculum, to discharge their social responsibility.

One answer to all these questions is CEAT. It will not only teach the students vitals of life skill but it will also sharpen their skill for academic and career success.

C (Communication) – Communication is an art. Students are required to be developed in verbal

and written communication. It will enhance their confidence of self expression also.

E (Etiquette) – Good etiquettes are the signs of positive personality. Students grooming in etiquettes are socially accepted and respected.

A (Attitude) – Attitude is developed in the environment when the child spends his/her maximum time. Positive attitude towards life is an important trait of happy life.

T (Technology) – To be a professional, a child is required to be technically skilled. Now technology has become an integral part of our life. It is the need of the hour that students should be trained to use the latest technology.

It is the biggest challenge of today to sensitize our young minds with the urgency and importance of environment protection. The real crux of the issue in this regard is that on most of the time society is more moralizing and less adoptive. Hence a child should be taught to be more adoptive and less moralizing.

FAQS RELATED TO CAREER AND ANSWERS

FAQs RELATED TO CAREER SELECTION

Which is the best institute in India to pursue astronomy for higher studies? (Rohit Kashyap, Varanasi)

RPS: Indian Institute of Astrophysics, Bangalore (IIA), Indian Institute of Science, Bangalore (IISc), National Centre for Radio Astrophysics, Pune (NCRA-TIFR), Inter-University Centre for Astronomy and Astrophysics, Pune (IUCAA), Physical Research Laboratory, Ahmedabad (PRL), Raman Research Institute, Bangalore (RRI), TATA Institute of Fundamental Research

I am currently doing BA (Economics) from Sagar University. Can I do MBA and will it be a good decision? (Prerna, Jabalpur)

RPS: MBA admissions in India and abroad need you to have at least graduate or bachelor's degree to get admitted. Usually this eligibility degree can be from any field but from a recognized university from anywhere in the world. MBA stands for Masters in Business Administration that shows that at the end what matters is to be a good administrator.

Hello Sir, I am B.Tech Final year student in an engineering college from Mathura. But now I want to make a career in teaching field. I am very confused that from how and where should I start? (Jyoti Sengar, Mathura)

RPS: Teaching is a much respectable career and those who have a passion towards teaching can opt for this career. Many Indian universities as well as colleges offer students of B.Tech to work with them as guest lecturers or lecturers. Aspirants who wish to pursue a career in teaching must have an M.Tech degree. Upon the completion of this course, it is needed for them to clear the NET or the SLET exams. The main purpose of these exams is to make the candidates eligible for the posts of lecturers in reputed institutions in India. This can be considered as the basic eligibility for a lecturer.

I am a graduate, with an interest in Fashion

Designing. I would like to work in a medium where I can display my creativity. What are the career options that I can explore? (Jayanti Thakral, Lucknow)

RPS: Fashion technology has a wide scope for choosing a career. Now the fashion industry has become so specialized that it encompasses a vast field of studies in design, concept management, design production management, quality control, planning, fabric design, printing, fashion accessory design, fashion merchandising, textile science, colour mixing, marketing and so on. Larger apparel companies typically employ a team of designers headed by a creative designer. Some fashion designers specialize in clothing, footwear, or accessory design; others create designs in all three fashion categories.

Most fashion designers have a bachelor's degree in fashion design or fashion merchandising. In these programs, they learn about textiles and fabrics and how to use computer-aided design (CAD) technology.

The National Association of Schools of Art and Design accredits approximately 320 postsecondary institutions with programs in art and design, and many of these schools award degrees in fashion design. Many schools require students to have completed basic art and design courses before they enter a program. Applicants usually have to submit sketches and other examples of their artistic ability.

What Should I Pursue as a student of Geography in Future from Art Background?

RPS: Geography offers several career options with numerous specializations.

artography - Geographers who specialize in this sub-category of geography make maps, charts, globes, and models

Survey - Geographers can specialize in surveying, either by joining the Survey of India or state survey departments or private organizations. Surveyors map

the surface of the earth through mathematical observations and field work. This is one of many **geography jobs in India.**

Urban and Regional Planning - The specialization is concerned with planning, housing, and development projects with respect to their location and utilization of available land-space. There are degree courses available in this stream.

Town Planning - Town planners are employed by public and private organizations engaged in urban planning and design and by NGOs involved in rural development projects. Many universities offer

diploma courses in the specialized field of town planning.

Remote Sensing - Studies of quickly changing phenomena such as floods, draught and forest fires, etc. Remote sensing satellites provide a variety of information about the earth's surface

...nurturing Scholars

"Creating people who possess a great deal of knowledge".

This ethos was the guiding-post for the crusader Y.P. Ranade under whose visionary leadership the inception of The Ranade Group happened. The main focus of all the group companies has been child education through quality books.

He envisaged the limitless possibilities that all the children have and believed that books are the carriers of civilization; "To plant a seed is to think a year ahead. To plant a tree is to think 10 years ahead. To educate a people is to think 100 years ahead". and thus undertook a broader mission to provide children with the knowledge, skills, dispositions and attitudes through books that enable them to make informed moral decisions and prepare them to become caring members of society.

True to the core, we are carrying forward the legacy with 'Scholar Books' those are created to capture the true essence from the above inspiration and to develop brilliance in children.

Ranade.

Mr Rohit Dagar, Director, New Delhi Public School, Palwal, In talks with Sh. Yash pal Yadav, Honourable DC, Palwal.

Q. We see that you are very fit and well maintained. Kindly share the secret.

Ans. I start my day with morning walk and yoga. This is how I try to keep my energy high

Q. We know the kind of stress involved in your role. What is the mantra you follow to cope up with the challenges and stay stress free?

Ans. Tough is what you perceive, so I don't see my role tough, but a position of high responsibility which gives me an opportunity to serve others. Hence, having a positive approach is the mantra.

Q. Do you have any suggestion or message for the educators ?

Ans. They are all already doing a wonderful job and we are thankful to each one of them for imparting values to our children. And initiative like Educators' Club will further inculcate the feeling of brotherhood. I congratulate Mr. Ramesh Dagar and his entire team for creating such a conducive environment.

Q. In today's globalised world, where students have such an easy access to internet, what should be the parents' responsibility? How do you think they can contain them?

Ans. The responsibility needs to be shared by the parents and teachers. You cannot take away new technologies from the children, but you need to keep a close watch and monitor them.

Q. What did you like the most about today's function?

Ans. I liked the informal environment where you could interact with everybody. I am indebted to the Educators' Club for having me here and want to thank you all for this opportunity
